

Monday February 8, 2010

The New Haven Chapter has put together the 2010 Training and Education schedule. We are also doing private company sponsored courses and would be happy to discuss a private course for your company.

- **CSCP** – We are working with a local company for an in-house class. There may be openings for some “outside” students so please contact us if you are interested. CSCP is a 13 week class designed for individuals and organizations looking to develop or enhance skills to create and execute a supply chain strategy that meets customer needs, reduces cost and increases profits. Register today for this comprehensive program and open the door to new career opportunities by setting yourself apart from other supply chain professionals.
- **CSCP** – We would also like to run an evening or weekend public class – please let us know of your interest and preferred location.
- **CPIM** –
- **Basics of Supply Chain Management – UPDATE**

Start Date: Wednesday 2/24/2010 and continuing for 10 weeks

Class Time: 3:30 PM – 6:00 PM

Location: Covidien, 60 Middletown Avenue, North Haven, CT 06473
(minutes from exits 8 or 9 on I-91)

Cost: \$595 including the workbook. (Note, anyone who has taken this class from New Haven Chapter in the past and needs to retake the test may do so at “No-Cost” except for the workbook).

This class is open to the public subject to approval by our host (No competitors please).

If you have any questions, please contact our Education Director Bob Kennedy at 203-269-4067.

- **NEW! – Lean Enterprise Workshop Series** - APICS’ new Lean Series is a seven module course designed in recognition of the demand in the marketplace for education about Lean. Newly developed by a team of instructional design professionals and subject matter experts. The series is organized and flexible, enabling participants to approach the Lean transformation process systematically and for instructors to customize the material for organizations and industries. Build your skills and become a lean leader with this new series. We are planning to offer this workshop in the Central CT area in the Spring. Please contact us if you or your company is interested.

- **New! – Global Sourcing Workshop Series** – The Global Sourcing Workshop Series provides a comprehensive study of the critical tasks and challenges associated with sourcing and procurement internationally. It consists of a 4 workshop series and a stand-alone Executive Overview workshop. We are scheduling this workshop to begin in the Spring so please contact us if you or your company is interested.
- **NEW! — Train-the-Trainer Workshop** — This brand new 2-day workshop is designed to provide attendees with skills, techniques and workable methodologies to successfully deliver adult training in *any subject*. Any company that conducts in-house training of their workforce would benefit greatly. The New Haven Chapter will be conducting one of these workshops in the Spring and is actively looking for a suitable host site. Please contact us if you are interested in attending or hosting.

Money for Training — Today, many business managers find it hard to balance the cost associated with training against the immediate needs of the business. Does this sound like you or your manager? If so, there are potential grant funds available through the CT Department of Labor for APICS training for you or your workforce. The value to your company could be up to \$50,000. Bob Kennedy, our education coordinator, has already helped several companies complete the application process. If you are interested in a training program, please contact Bob **now**, as new funds get allocated very quickly. It does take some time to go through the application process so please don't wait. Bob can be reached by email at bobkennedy250@gmail.com or by phone at 203-269-4067. He can review your needs and help you apply for the grant. These funds are only available for a limited time, so please contact Bob right away.

We have a variety of options available now, but our goal is to meet our members' needs. Please review our current schedule and contact Bob with questions or to register.

Please contact Bob Kennedy at (203) 269-4067 or bobkennedy250@gmail.com for details.

[APICS On-Site](#)

This is our most popular method, in part because it is possible to get funding grants for companies that host these programs. Classes are tailored to your company and we can schedule a class to suit your needs, either during, after or overlapping work hours. Often companies will open these classes to the public particularly if they only have a limited number of students. We are already talking to several companies in various areas of CT for classes in both CPIM and CSCP which will most likely be open to the public. Please let us know of your interest so we can keep you advised.
